## ABOUT ME

As a product designer with developer background, I'm driven by creativity and inspired by the power of design to shape meaningful user experiences. Proficient in advocating for user-centered design principles and creating for IOS and Android platforms. Collaborative team player with strong communication skills, adept of working closely with cross-functional teams to ensure successful implementation of designs. Currently seeking opportunities in an international environment which will enable me to create user interfaces that leave a lasting impression.

## WORK EXPERIENCE

present

2022

### PRODUCT DESIGNER

New Cloud Technologies LTD

Specializing in mobile design for email, calendar, and task-tracking applications, encompassing all stages of design thinking (empathize, define, ideate, prototype, test).

Fostered collaboration and consistency across teams by working closely with product managers, designers, developers and QA.

Aug 2024

Oct 2024

### UI DESIGNER

Hope for men

Creating user-friendly and welcoming interfaces for an online platform supporting male victims of violence by connecting them with psychological therapists. The role involves developing wireframes, prototypes, and high-fidelity designs for web and mobile platforms, with a focus on accessibility and inclusivity.

2022

2021

### UX/UI DESIGNER

Tensor Company LLC

Specialized in creating web and mobile applications for couriers and maps, with a focus on optimizing user experiences and enhancing functionality. Developed user interfaces for better navigation and efficient delivery tracking, resulting in improved business metrics.

2022

and 2020

### DESIGNER COURSE INSTRUCTOR

Level Up, School of visualization technologies

Conducted webinars about creating UI/UX for web and mobile apps, developed interactive prototypes for teaching students, reviewed and provided feedback on students' homework, introduced Design Systems, updated and maintained the course program, and answered questions in the students' channel.

2020

2019

### DATA SCIENTIST

Gazpromneft

Experienced in developing neural networks tailored for predictive maintenance in the oil and gas sector. Specialized in proceeding large data sets, statistical analysis, machine learning and data visualization techniques.

## EDUCATION

2023

2021

### ITMO UNIVERSITY

Master's degree in human-computer interaction, multimedia-technologies, design and usability.

2021

2017

### PETROLEUM TECHNICAL UNIVERSITY

Bachelors degree in Applied informatics in oil and gas industry.
